Villa Borghi suggests
visit to the vineyard with tasting

A magical
opportunity
to experience new
flavors.

Located on the renowned banks of Lake Maggiore in Angera, Cascina Piano is today a recognized reference for the quality of its own production of wines "Ronchi Varesini IGT".

Cascina Piano has a young history that enhances an ancient culture. Founded in 2003, the company has established itself as the forerunner of the "Ronchi Varesini IGT" certification, embodying its corporate mission to quality, to the experimentation and a deep connection with the territory of "Ronchi Varesini" and "Lake Maggiore".

The quality that the company is ambitious for is a synthesis of territory, research, innovation and development. The standards are regulated by "Ronchi Varesini IGT" with a continuous effort towards improvement to ensure an ever higher level of product.

Cascina Piano pursues the promotion of native varieties, varieties in part abandoned and takes care of the selection of new varieties to be included in the IGT.

She chooses as her own autochthonous vine of excellence the Nebbiolo, cultivated on the morainic hills of Angera with a unique and territorial result.
